“Resolutely upbeat.” — *The New York Times*

“No one is making music quite like Valerie June.” — *The Bluegrass Situation*

“In the context of June’s career and music, the mystical can appear reasonable: her story is unlikely, her presence otherworldly, her songs apparently channeled from another time and place entirely.” — *Uncut*

Last weekend, the inimitable **Valerie June** returned to **CBS Saturday Morning** where she performed several songs off her forthcoming album, ***Owls, Omens, and Oracles***, out **this Friday on Concord Records**. Accompanied by her band, she played lead single “**Joy, Joy!**,” the unreleased “**All I Really Wanna Do**,” and debuted “**Endless Tree**,” released today as a single with an accompanying video. June’s spirited performance gives a taste of what to expect on the upcoming *Owls, Omens, and Oracles* Tour, which kicks off next week and runs through late June. A full list of dates can be found below, and tickets can be purchased [here](#).

CBS Saturday Morning - “Endless Tree” Performance Still

Following “**Sweet Things Just For You**,” which *Billboard* praised for its “sincere affection,” “Endless Tree” sees June growl, hiss, stutter, and chant her way through an anthemic rocker. “Are you ready to see / A world where we could all be free / As branches of an endless tree?” encourages June. On *Owls, Omens, and Oracles*, every song is composed with the intention of honoring our interconnectedness, and this message shines throughout “Endless Tree.”

June explains, “As we see so much divisiveness and polarization in the world, this song asks listeners if they are ready for a more harmonious and peaceful planet. If what we focus on is what manifests, then, although we don’t always agree with each other, might it still be possible to respect our differences and grow together vs. creating wars? Trees have a secret language that connects them to each other. Without plants and trees, we couldn’t breathe. What can we learn from plants as teachers?” The song’s aptly bright accompanying video was directed by **Neta Ben Ezra**.

“Endless Tree” Video Still

Rooted in the belief that what we focus on is what we manifest, June dreams a songpath forward with *Owls, Omens, and Oracles* that leaves no one behind. Halfway through a decade of immense and rapid global change, June asserts a multidimensional Blackness steeped in laughter, truth, magic, delight, and interdependence. This album is a radical statement to break skepticism, surveillance, and doom scrolling – let yourself celebrate your aliveness. Connect, weep, change, open.

Throughout the M. Ward-produced *Owls, Omens, and Oracles*, June’s distinctive Tennessee twang grips the listener. Visceral twists and a fierceness of raw emotion thread textures and tones through the needle of a multi-genre American quilt, striking against notions that voices should always sound polished and pretty. Gracefulness and gentleness harmonize with dissonance, edginess, and precarity in the sharpest parts of her voice.

June's singular sound is a north star as steady and undeniable as any true love story, telling us to "trust the path." She is inviting us out of the small boxes that keep us apart from each other, her music creating a space where we are already together, already one. The horizon changes as we get closer to it, but our artist is sure-footed in the face of uncertainty and change. She wants everyone who listens to this music to *want* to be alive, to love, co-creating a future together.

This month, Valerie will be the subject of a new exhibit opening at the **National Museum of African American Music** (NMAAM) in Nashville. In addition to celebrating *Owls, Omens, and Oracles*, her exhibit will feature artifacts such as instruments, clothing, published works, and other items from her storied career. The exhibit's unveiling will take place on **Saturday, April 26, at 12:30pm CT**. June will be there in person to discuss her new album and the exhibit along with providing a guided meditation and reading. The event will be livestreamed globally. More details at www.nmaam.org.
